# REZcom commission processing system

REZcom is a reliable and practical online commission processing system that collects and pays your hotel's commission payments to travel agents and intermediaries that book your property, in their preferred currency.

REZcom is a very cost effective way for your hotel to issue payments that need to be made to agencies in other countries.

## REZcom benefits:

- ...> Never write a cheque again to a travel agent that sent you an invoice
- ...> Automatically calculates the amount of commission you have to pay
- ...> Direct payment will be made to the travel agents in their own currency
- ...> Cheaper than the cost of a cheque, stamp and envelope
- ...> An agent will never need to chase you again for commission
- ...> All you have to do is check REZcom once a week and manage the non-arrivals and cancellations

To process payments you simply logon once a week and authorise the commissions that are due to be paid on your behalf to the travel agency. REZcom is integrated with CentralREZ, our Central Reservation System, however bookings from other sources or directly made at the property can also be processed via REZcom.

Travel agents remember and reward hotels that pay prompt commission payments.
